Correction: BMC Medical Research Methodology 23, 81 (2023)
https://doi.org/10.1186/s12874-023-01882-z

Following the publication of the original article [1], the authors requested to update the number of covariates in Abstract section from 39 to 37 covariates. In section “Matching specification”, 39 has been changed to 37 (fourth paragraph), and “count of CDC high-risk conditions, count of mental health conditions” has been removed (fifth paragraph).

The original article [1] has been updated.

Published online: 25 August 2023
